High power laser diode

Choose your own high power fiber-coupled laser diode alone or associated with a modular & easy-to-use driver

Fiber-coupled high power laser diodes at 808nm, 915nm or 976nm are sourced from the most reliable manufacturers and offered as stock items or associated with a CW turn-key laser diode driver with air cooled temperature regulation. Two driver+diode form-factors can be chosen. The integrated version is offered with either a high power connector or a 3mm collimator.
